Preamble

The EAACI Hybrid Congress 2021 will be made up of both onsite and digital elements. Combining these two very different elements together at the EAACI Annual Congress will be referred to throughout this document as a Hybrid congress. This new model of congress provides EAACI with a unique opportunity to offer its sponsors and industry partners a platform to inform and exchange information not only within Europe but also on a global stage. The onsite portion of the EAACI Hybrid Congress 2021 will provide the much needed face-to-face exchange of information while the additional digital options will allow the science and knowledge to be accessible by many more thousands of participants whom for several reasons are not able to make the trip to Krakow.

Please note:

- EAACI sponsor opportunities will offer both onsite and digital separately within this sponsorship prospectus
- The bundling of items together will form a sponsor package that the sponsor must pay in full before the Hybrid congress starts
- To be fair to all other sponsors and so that all companies are treated equally, only in extreme circumstances will any bundles qualify a sponsor for a discount. The requests will be handled on a case by case basis.

2020 has been exceptional year for all of us at EAACI and everyone is faced with challenges beyond imagination. EAACI is no exception and we are working very hard to keep our operations, so many others rely and depend on, running. With this in mind, EAACI would like to thank all sponsors for their continuing support as the contributions benefit both the Allergy and Immunology field and at the same time ensure the survival of EAACI during these challenging times with COVID-19. We look forward to continuing the ground-breaking developments into the 2021 and beyond.

Science and Education

Highlights Session (Unrestricted educational grant)

Description: Highlights Sessions are an excellent opportunity to support scientific content with a high level of visibility. Highlights Sessions are short and concise sessions which are compiled by the Scientific Programme Committee. The session highlights the most relevant talks of a certain topic and recaps on significant results from other sessions. With an educational grant, a company can select the overall topic of the session. However, the content and structure will be up to the EAACI Sections and Interest Group to design: an innovative, fast-paced session that highlights the most burning topics and compiles key messages.

Benefits:

- Your company logo will be integrated in the session announcements in the e-Final Programme and EAACI Hybrid Congress 2021 Mobile App as well as at the beginning of the session on the welcome screen.
- Your session will be announced by an official independent host
- Limited to 3 sessions for the whole congress period (1 session per day)

Deadlines:

- Booking Deadline: 22 January 2021
- Deadline for submission of overall topic: 22 January 2021

Additional Information:

- Duration: 15 minutes
- When? Once per day during a break between regular sessions. As the session is only 15 minutes long, there will be enough time for delegates to arrive from previous sessions and leave for the next session

Please consider that this is an **independent, scientific session supported by an unrestricted educational grant from a company.**

Companies providing such a grant are only permitted to suggest an overall topic and are prohibited from influencing speakers of the content of the session. Any requests by the sponsors to speakers – either prior to the congress or shortly before/during the session - with regards the content of their session or requests to mention company names and products etc. are not permitted.
